MEETING OF DOSARM CENTRAL COMMITTEE

A worth-while experiment carried out by the primary organization of the Volunteer Society for Cooperation with the Army (DOSARM) of Moscow Machine-Tool-Building Plant imeni Sergo Ordzhonikidze was discussed at a session of the Central Committee of DOSARM.

Striving to improve the quality of mass-production work, the primary organization of DOSARM, with the assistance of Party, trade union, Konsomol organizations, and the management of the plant formed a technical instruction base, using their own resources, without any monetary expenditures.

DOSARM members in their own free time fitted out a room for study circles and set up exhibits, visual aids, classrooms, etc.

Technical-instruction bases are being built by DOSARM members of the Plant imeni Mäslennikov in Kuybyshev, the Machine-Building Plant in Baku, and the Moscow Power Engineering Institute imeni Molotov. Their example is being emulated by DOSARM organizations on collective farms.

Technical instruction bases are being established in the Kolkhoz imeni N. K. Krupskaya and the Kolkhoz imeni Kuybyshev of the Sredne-Aktyubinsk Rayon of Stalingrad Oblast and in many other collective farms.

The Central Committee of DOSARM approved the initiative of the primary DOSARM organizations of the Ordzhonikidze Plant and called upon republic, kray, oblast, and rayon committees of DOSARM to take steps to continue this valuable experiment.

The Central Committee of DOSARM will distribute, in the near future, model plans for equipping military clubrooms, classrooms, and shooting ranges, and for preparing lists of literature for libraries.

The Certificate of Merit of the Central Committee of DOSARM was awarded to the primary DOSARM organization of the Ordzhonikidze plant. The Moscow City Committee of DOSARM was instructed to recommend the promoters of this valuable undertaking for Certificates of Merit.

The Central Committee of DOSARM heard reports of the work of DOSARM organizations of Kursk and Kurgan oblasts. Grave deficiencies in the work of these organizations were noted (low level of mass organizational work, poor work with the active members, insufficient activity of radio clubs and motor clubs, etc.). The Central Committee of DOSARM laid down concrete measures for improving the work of these organizations.
